Alsbury Tells UBC:

Educate To Survive

VANCOUVER (CP)—Mayor Tom Alsbury warned yesterday that more of Canada's economic resources must be used to encourage higher education.

In an address to UBC students, he said Canada must survive in a world where powers like the Soviet Union now go to great length to encourage higher education.

Mayor Alsbury also warned that the fate of democracy, as it is known today, may depend on the interest the students take in affairs of their government when they leave university.

"Democracy is still the best form of government, but it also demands a higher contribution from the people who live free lives under it," he said.

The mayor criticized the provincial government for doing little for education in their 1959 budget.

"We in Canada should be subsidizing higher education rather than cutting it," he said.

U.S. Backs Turkey, Iran, Pakistan

Defence Pacts Signed

ANKARA (Reuters) — The United States yesterday signed bilateral defence agreements with Turkey, Iran and Pakistan.

The Soviet Union has voiced bitter objections to the treaties, with Iran singled out for special denunciation.

All three countries are members of the Baghdad Pact. The United States offered bilateral defence pacts to each although it is not a full member of the pact.

The three treaties were signed by Fletcher Warren, U.S. ambassador to Turkey, at a single ceremony at the foreign ministry here.

Warren said the signing confirmed United States support for the joint defence and economic efforts of the countries concerned.

"These agreements also show that the United States supports the political independence and territorial integrity of Turkey, Iran and Pakistan," he said.

Iran's decision to sign the treaty was followed by sharp exchange with Soviet Union.

Last Monday Iran disclosed it had notified Moscow that Iran regarded as invalid articles in a 38-year-old treaty giving Soviet troops the right to enter Iran under certain conditions.

The Soviet Union broke off negotiation with Iran for a non-aggression pact a short time ago.

Alcohol Education Demanded in School

REGINA (CP) — A demand for more temperance education in schools was made Thursday in the legislature by Socred Isaak Elias.

He criticized the CCF government for devoting "little time and space" in the curriculum to teaching the effects of alcohol.

He said two pages in one 327-page text and nine in a 570-page text used in Saskatchewan are devoted to the effects of tobacco and alcohol.

Education Minister W. S. Lloyd said there is also a complete manual on alcohol, Mr. Elias replied that it is not widely used.

Speaking of the misuses of alcohol, Mr. Elias said:

"I personally do not see that the answer to moderation can be found in legislation but solely in the education of our people."

"A bold educational program is needed not only in Saskatchewan but all over the world, a program that will start in the home and church supported by the school," Mr. Elias said.

He claimed advertisements of liquor and television shows which tend to glamourize drinking have a negative influence on young persons.

Francis H. Norton Dairy Founder Dies

Funeral services will be held Monday at 2.30 p.m. in St. Andrew's Presbyterian Church for Francis H. A. Norton, founder and president of Northwestern Creamery Ltd. He died in hospital yesterday at 74.

Born on a farm on Salt Spring Island, Mr. Norton left at 18 to come to Victoria where he got a job with the old Victoria Creamery. Nine years later, in 1912, he established Northwestern Creamery and built it into one of the largest and most modern on Vancouver Island.

In the past years, he was an active fisherman, hunter and golfer. He was a member of Vancouver-Quadra Majestic Council of the Royal Arcanum, past president of the Pacific Club, and member of the Union Club, Victoria Kiwanis Club and the Capital City Commercial Club.

Surviving are his widow, Laura, at home, 1725 Beach Drive; one son, Frank, and one daughter, Ruth, both of Victoria; and a brother, Joseph, Vancouver.

Rev. J. L. W. McLean will conduct the services. Burial will be at Royal Oak Burial Park under Masonic auspices. McCall Brothers are in charge of funeral arrangements.

NUCLEONICS

Does modern science contribute to the age old art of making Scotch? Of course. All the way from proving the plumpness of the grain used in making Grant's Stand Fast right up to testing the firmness of the foil which seals the famous triangular bottle, *science supervises every step.*

Still, it is easier to split the atom than to define the family heritage of five generations which produces the ability and the "standfastness" to *consistently* make such splendid whisky!
